Management Information Systems

2023 - 2027

Istanbul Topkapi University, Istanbul

I have participated in various projects, combining my academic background with modern development processes. Transforming complex problems into simple and efficient solutions is my top priority in the development field.

OPERATIONS AND ACCOUNTING ASSISTANT

2022 - 2022

ZANARDI LIFE RIVER HOUSE

- I manage daily operations and preliminary accounting processes through hotel management systems.
- I tracked invoices and current accounts, ensuring data records were organized and accurate.
- I also provided support for reporting.

SOFTWARE AND MANAGEMENT INTERN

2022 - 2023

ANKETCEPTE

- At a survey company, I worked as a volunteer intern in many different areas, including software, management, and marketing, for personal development.
- I have gained expertise in Web Development and Data Management.

IT - Information Technology Intern

2024 - 2025

ISTANBUL TOPKAPI UNIVERSITY

- Within the university's IT department, I actively participated in troubleshooting hardware and software issues, configuring network connections, and providing technical support to users.
- I gained experience in resolving technical problems quickly and effectively while ensuring the continuity of the existing infrastructure.
